# PRODUCTS OF AMANO CO. LTD.

CAR PARTS

COSMETICS PRODUCT

There you . SEAVEGE The aim was the "bare skin to regain its

Grace component of the sea with a strong life force, wrapped gently

original shape skin care."

your skin with plenty of moisture ,

#### 海の恵み 美容保湿成分 フコイダンについて

A kind of sulfate polysaccharide. Kelp or seaweed ( which is a part position , including sporophyll ) , mozuku etc. Many sticky component mozuku in dietary fiber that is included in the mucilage of brown algae content of this fucoidan is said to be six times higher compared to the other brown algae . High molecular fucoidan can not be extracted only a small 1% from Mozuku raw materials , a very valuable It is a component .

Active ingredient fuccidan (1) have been medically released

Medically to have been made a variety of research, entoxidant, enti-cancer action, entoxideral action, sion wound repair action, gastinc nuicosal protective effect, gastric ulcer healing promoting action, blood cholesterol towering action and the life will have been reported

(2) effect as cosmetics

Not perched when Mozuku is exposed to air in the process of growing, slap from predators. Creating a siziny ingredient to protect the self-confidence; and excellent power to retain monsture.

Fucoidan forms a thin film on the skin surface, while preventing moisture evaporation, dust and ultraviolet rays.

If will protect the skin from external stimuli such as

From prevention and improving effect of the experimental results of akm aging , fucodan to prevent and improve the formation of wrinkles in , it is said that there is inhibitory effect of lowering the amount of collagen.

# **OUR STRENGTH**

- ☐ Service Quality
- ☐ Highly Qualified Team
- ☐ Cheap Manpower
- ☐ Diversity

# STRENGTH OF BANGLADESH

#### Strength of Bangladesh and its People:

- ☐ Rich IT resources
- ☐ International communication skill: Well versed in English,
  Hindi, and many people learn French, Japanese and Chinese
- ☐ Internet access avails online courses on IT and programming
- ☐ A large number of freelancer IT professionals

#### Industrial and IT Export Competitiveness of Bangladesh:

- > Computer hardware
- Automobile manufacturing industry
- IT and E&E manufacturing company
- > Energy efficient appliances
- > Digitalization of public, private, and domestic sectors at large

Bangladeshi Technologist Developed Information Monitoring Robot: A B.Sc. in Engineering graduate, Mr. Navid Bin Ahmed developed a Robot for information monitor and transmission for radioactive nuclear zones at Bangladesh Atomic Energy Commission. He was invited in Thailand to present this work in 2018.

## New concepts in Telemedicine and Power Electronics Presented by SECS faculty and student at Electronics Conference at Atomic Energy Center

Faculty members and a student of School of Engineering presented new scientific developments at the Conference on Electronics and ICT at the Atomic Energy Center on Friday, April 20th. Prof. S. Khan presented how a generalized approach to Telemedicine can be used for increasing present capabilities of health care at remote locations. Dr. Razzak presented his invited paper on new power electronic circuits for connecting to the power grid. EEE student Navid Ahmed presented his Autonomous Robot designed for radioactive areas, made with collaboration with the Atomic Energy Center. The conference was organized by Bangladesh Electronics Society and was attended by many many prominent academics and professionals. Professor Farruk Ahmed of SECS was the Chief guest.
